

Inspired by famous visual artists, and using Europe as its theme, the 2015 festival poster has been marvelously designed by Kim Noce.

We selected our 5th edition theme to be Europe, with all its charm and contradictions.

The talented **Kim Noce** has the ability to capture an almost magical sense of the face within an environment always complex, always interesting (VK).

Kim Noce: I tried to capture the essence of Europe. "Europa" as an idea. "Europa" is a child: her head made of everything she learns, hopes, and fears. She isn't yet an adult, free, full of potential... but chaotic, messy.

A child makes mistakes but has hope for the future. Everything is made of ideas..
